

Stat101 Homework Report for Section A and Unit 2

Overview

The 3 homework outcome files are Topic06.A.csv, Topic07.A.csv, Topic08.A.csv.

There are 50 students in Section A submitting their answers. 50 of them did all the homeworks. Since different homeworks have different full scores, the percentages correct are used to compare among homeworks. The average correct percents for the 3 homeworks are 82, 91, 72, respectively. Figure 1 compares the histograms of those homeworks. Table 1 and Figure 2 display the basic summaries of the scores.

	Mean	Std.dev	Min	Median	Max
Topic06	82.40	14.90	32.00	88.00	100.00
Topic07	90.80	7.55	56.00	92.00	100.00
Topic08	71.55	20.69	13.64	77.27	100.00

Table 1: Summary statistics for correct percentage. Topic07 has the highest mean correct percentage, while Topic08 has the lowest. Topic08 has the largest standard deviation, and Topic07 has the smallest.

Figure 2: Side-by-side boxplots of the percentages correct by students homeworks. Topic07 has the highest median, while Topic08 has the lowest median.

Figure 1: Histograms of the percentages correct by students homeworks.

Students

Figure 3 and Table 2 give the percentage scores of each homework of all homeworks for every student in this section. Table 2 also provides the mean percentages by student. The students are sorted by their average percentage score of 3 homeworks. Table 3 lists the students who were in the lower 20% of the class.

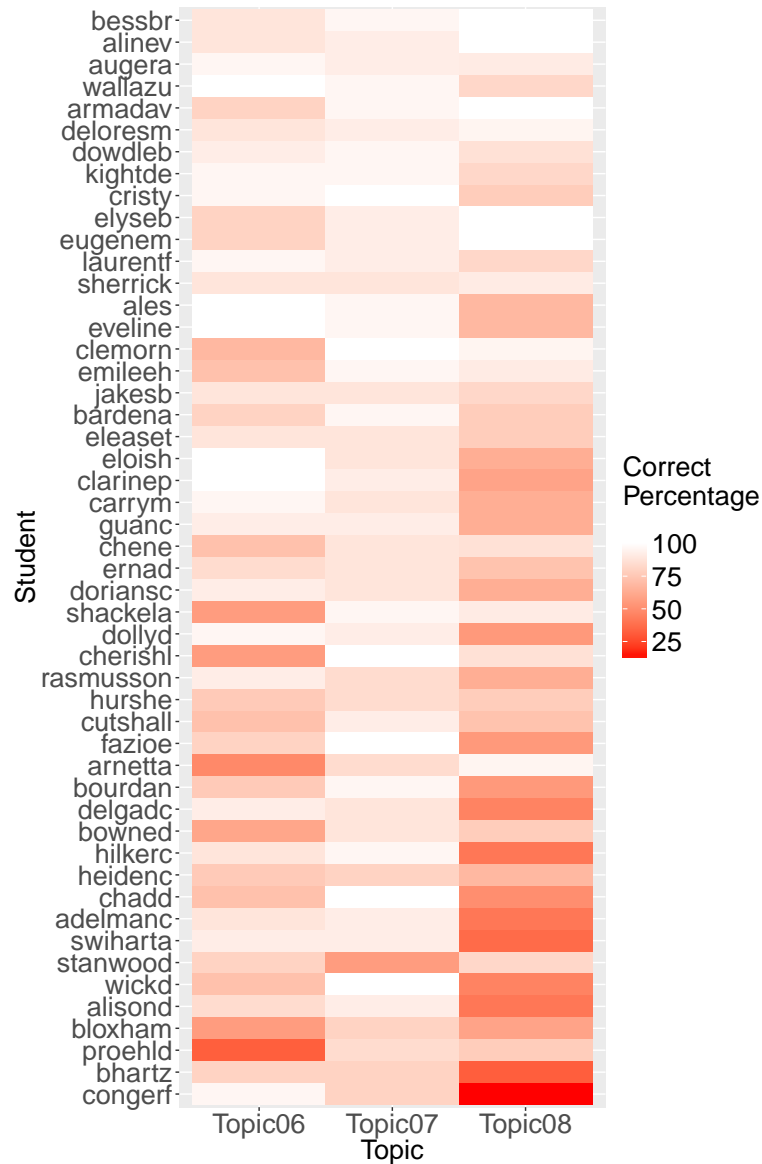

Figure 3: Heatmap of the percentage scores of all homeworks for students in the section. The grey areas are the missing values.
